## Foreword

**xvii**

## **What Is an Extranet? 3**

Forces Shaping the Extranet	5
The Components of an End-to-End Extranet Solution	13
Your Role in Extranet Development	21
Resources	28

## **Benefits versus Costs: The ROI of an Extranet 33**

Making the Case for an Extranet	33
Some Basic Methods for Determining ROI	35
Benefits of an Extranet	39
Cost Savings	50
Costs of an Extranet	52
Choosing a Project to Demonstrate ROI	54
Sample ROI Calculation Worksheets	54
Resources	59

## **Requirements Definition, Analysis and Design, Prototyping 63**

Requirements Definition	66
Analysis and Design	72
Prototyping—Selecting a Pilot Project	75
The Extranet Development Plan Template	77
Resources	90

## **Building the Extranet 91**

Security	92
Version Control	93

Translation/Localization	95
Electronic Commerce	96
Database and Legacy Systems Integration	97
Bandwidth and Performance Issues	98

## **Extranet Security 101**

Preventing Crime in the Inner City	101
Justifying the Security Investment	107
Classifying Your Assets	108
Classifying Possible Threats	110
Protection Mechanisms	116
Selectively Letting Third Parties past the Firewall	125
The Unique Security Challenges of Extranets	127
What to Do If Someone Breaks In	130
The Basics of Developing a Security Policy	132
Performing Security Audits	135
Security Products	135
Try It Out with the Enclosed CD	138
Resources	139

## **Version Control within a Collaborative Extranet 147**

Building a Virtual Team—The Key to an Effective Extranet	147
The Role of Automated Version Control and Software Configuration Management	151
The Principles of Software Configuration Management	154
The Benefits of Automated Version Control and Configuration Management	156

Managing the Life Cycle of Your Extranet	160
Comparison Charts	163
Try It Out with the Enclosed CD	166

## **Building a Global Extranet 169**

English Is Just Another Language	170
The Benefits of Going Global	174
Cultural Issues	176
Internationalization vs. Localization vs. Translation	177
Choosing a Localization Agency	182
Translation Tools	186
Asian Localization—A Unique Challenge	189
Currency Conversion—The Euro	190
Checklist for Possible Translation Issues	191
Try It Out with the Enclosed CD	193
Resources	194

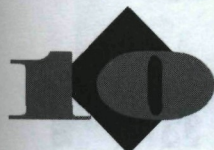

## **Building an Electronic Commerce Infrastructure 195**

More Businesses Are Passing the Buck	196
Benefits of Extranets for Electronic Commerce	196
EDI	201
Privacy and Paranoia	204
Ready, SET, Buy!	205
Checklist for Setting Up an Electronic Commerce Site	208
Resources	210

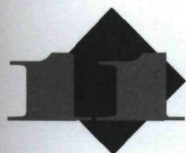

## **Database and Legacy Systems Integration 215**

Feed the Dinosaur or Replace It?	215
Develop a Legacy Migration and Integration Plan	226
Gateways	229
Middleware	234
SNA to TCP/IP	237
Linking the Web to Databases	237
Resources	240

## **Bandwidth and Performance Issues 249**

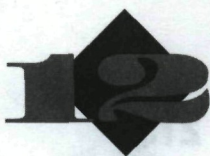

The Great Internet Collapse	249
Post Offices, Cars, and the Dreaded ARPANET History	253
The Role of Routers	255
Crawling the Last Mile	256
Trends	257
Don't Hold Up Your End	265
Resources	270

## **Testing, Implementation, and Rollout 277**

Testing	279
Implementation and Rollout	290
Resources	294

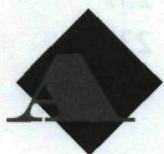

## **The Life Cycle Continues**

**299**

Extranet Statistics and Reporting	300
Network Monitoring and Management	302
Managing Your Extranet Web Site	306
Extranet Maintenance and Support	312
A Real-Life Example	317
Resources	326

## **What's On the CD-ROM**

**329**

CD-ROM Installation	331
