# Exponential Functionals of Brownian Motion and Related Processes

Springer

# Table of Contents

<b>Preface</b> .....	<b>v</b>
<b>0. Functionals of Brownian Motion in Finance and in Insurance</b> .....	<b>1</b>
<i>by Hélyette Geman</i>	
<b>1. On Certain Exponential Functionals of Real-Valued Brownian Motion</b> .....	<b>14</b>
<i>J. Appl. Prob. 29 (1992), 202–208</i>	
<b>2. On Some Exponential Functionals of Brownian Motion</b> ..	<b>23</b>
<i>Adv. Appl. Prob. 24 (1992), 509–531</i>	
<b>3. Some Relations between Bessel Processes, Asian Options and Confluent Hypergeometric Functions</b> .....	<b>49</b>
<i>C.R. Acad. Sci., Paris, Sér. I 314 (1992), 471–474</i> <i>(with Hélyette Geman)</i>	
<b>4. The Laws of Exponential Functionals of Brownian Motion, Taken at Various Random Times</b> .....	<b>55</b>
<i>C.R. Acad. Sci., Paris, Sér. I 314 (1992), 951–956</i>	
<b>5. Bessel Processes, Asian Options, and Perpetuities</b> .....	<b>63</b>
<i>Mathematical Finance, Vol. 3, No. 4 (October 1993), 349–375</i> <i>(with Hélyette Geman)</i>	
<b>6. Further Results on Exponential Functionals of Brownian Motion</b> .....	<b>93</b>
<b>7. From Planar Brownian Windings to Asian Options</b> .....	<b>123</b>
<i>Insurance: Mathematics and Economics 13 (1993), 23–34</i>	
<b>8. On Exponential Functionals of Certain Lévy Processes</b> ..	<b>139</b>
<i>Stochastics and Stochastic Rep. 47 (1994), 71–101</i> <i>(with P. Carmona and F. Petit)</i>	
<b>9. On Some Exponential-integral Functionals of Bessel Processes</b> .....	<b>172</b>
<i>Mathematical Finance, Vol. 3, No. 2 (April 1993), 231–240</i>	
<b>10. Exponential Functionals of Brownian Motion and Disordered Systems</b> .....	<b>182</b>
<i>J. App. Prob. 35 (1998), 255–271</i> <i>(with A. Comtet and C. Monthus)</i>	
<b>Index</b> .....	<b>205</b>
