## PART I   FINANCE AND THE FINANCIAL SYSTEM      1

### Chapter 1   What Is Finance?      1

- 1.1 Defining Finance      2
- 1.2 Why Study Finance?      2
- 1.3 Financial Decisions of Households      5
- 1.4 Financial Decisions of Firms      6
- 1.5 Forms of Business Organization      7
- 1.6 Separation of Ownership and Management      9
- 1.7 The Goal of Management      10
- 1.8 Market Discipline: Takeovers      14
- 1.9 The Role of the Finance Specialist in a Corporation      15
- Summary      17
- Questions and Problems      20

### Chapter 2   The Financial System      21

- 2.1 What Is the Financial System?      22
- 2.2 The Flow of Funds      22
- 2.3 The Functional Perspective      24
  - 2.3.1 *Function 1: Transferring Resources across Time and Space*      25
  - 2.3.2 *Function 2: Managing Risk*      25
  - 2.3.3 *Function 3: Clearing and Settling Payments*      26
  - 2.3.4 *Function 4: Pooling Resources and Subdividing Shares*      27
  - 2.3.5 *Function 5: Providing Information*      28
  - 2.3.6 *Function 6: Dealing with Incentive Problems*      30
- 2.4 Financial Innovation and the "Invisible Hand"      33
- 2.5 Financial Markets      35
- 2.6 Financial Market Rates      36
  - 2.6.1 *Interest Rates*      36
  - 2.6.2 *Rates of Return on Risky Assets*      39
  - 2.6.3 *Market Indexes and Market Indexing*      40
  - 2.6.4 *Rates of Return in Historical Perspective*      43
  - 2.6.5 *Inflation and Real Interest Rates*      45
  - 2.6.6 *Interest Rate Equalization*      47
  - 2.6.7 *The Fundamental Determinants of Rates of Return*      48

2.7	Financial Intermediaries	50
2.7.1	Banks	50
2.7.2	Other Depository Savings Institutions	50
2.7.3	Insurance Companies	51
2.7.4	Pension and Retirement Funds	51
2.7.5	Mutual Funds	51
2.7.6	Investment Banks	52
2.7.7	Venture Capital Firms	52
2.7.8	Asset Management Firms	52
2.7.9	Information Services	52
2.8	Financial Infrastructure and Regulation	52
2.8.1	Rules for Trading	53
2.8.2	Accounting Systems	53
2.9	Governmental and Quasi-Governmental Organizations	53
2.9.1	Central Banks	54
2.9.2	Special-Purpose Intermediaries	54
2.9.3	Regional and World Organizations	55
	Summary	55
	Questions and Problems	59
	Appendix A	61
	Appendix B	62

### **Chapter 3    Interpreting and Forecasting Financial Statements    63**

3.1	Functions of Financial Statements	64
3.2	Review of Financial Statements	65
3.2.1	The Balance Sheet	65
3.2.2	The Income Statement	67
3.2.3	The Cash Flow Statement	68
3.2.4	Notes to Financial Statements	71
3.3	Market Values versus Book Values	73
3.4	Accounting versus Economic Measures of Income	75
3.5	Returns to Shareholders versus Return on Book Equity	76
3.6	Analysis Using Financial Ratios	77
3.6.1	The Relations among Ratios	79
3.6.2	The Effect of Financial Leverage	80
3.6.3	Limitations of Ratio Analysis	82
3.7	The Financial Planning Process	82
3.8	Constructing a Financial Planning Model	83
3.9	Growth and the Need for External Financing	86
3.9.1	The Firm's Sustainable Growth Rate	86
3.10	Working Capital Management	89
3.11	Liquidity and Cash Budgeting	90
	Summary	91
	Questions and Problems	94

**PART II TIME AND RESOURCE ALLOCATION 101****Chapter 4 The Time Value of Money and Discounted Cash Flow Analysis 101**

4.1	Compounding	102	
4.1.1	Calculating Future Values	104	
4.1.2	Saving for Old Age	106	
4.1.3	Reinvesting at a Different Rate	107	
4.1.4	Paying Back a Loan	107	
4.2	The Frequency of Compounding	108	
4.3	Present Value and Discounting	109	
4.3.1	When a \$100 Gift Is Not Really \$100	111	
4.4	Alternative Discounted Cash Flow Decision Rules	112	
4.4.1	Investing in Land	115	
4.4.2	Other People's Money	115	
4.5	Multiple Cash Flows	116	
4.5.1	Time Lines	117	
4.5.2	Future Value of a Stream of Cash Flows	117	
4.5.3	Present Value of a Stream of Cash Flows	118	
4.5.4	Investing with Multiple Cash Flows	118	
4.6	Annuities	118	
4.6.1	Future Value of Annuities	119	
4.6.2	Present Value of Annuities	120	
4.6.3	Buying an Annuity	120	
4.6.4	Taking a Mortgage Loan	121	
4.7	Perpetual Annuities	122	
4.7.1	Investing in Preferred Stock	123	
4.7.2	Investing in Common Stock	123	
4.8	Loan Amortization	124	
4.8.1	A Bargain Car Loan?	125	
4.9	Exchange Rates and Time Value of Money	125	
4.9.1	Computing NPV in Different Currencies	126	
4.10	Inflation and Discounted Cash Flow Analysis	127	
4.10.1	Inflation and Future Values	128	
4.10.2	Saving for College: 1	128	
4.10.3	Investing in Inflation-Proof CDs	129	
4.10.4	Why Debtors Gain from Unanticipated Inflation	129	
4.10.5	Inflation and Present Values	129	
4.10.6	Saving for College: 2	130	
4.10.7	Inflation and Savings Plans	131	
4.10.8	Saving for College: 3	131	
4.10.9	Inflation and Investment Decisions	132	
4.11	Taxes and Investment Decisions	133	
4.11.1	Invest in Tax-Exempt Bonds?	134	
	Summary	134	
	Questions and Problems	137	
	Appendix	142	

**Chapter 5    Life-Cycle Financial Planning            143**

- 5.1    A Life-Cycle Model of Saving            143
  - 5.1.1    Approach 1: Target Replacement Rate of Preretirement Income    144
  - 5.1.2    Approach 2: Maintain the Same Level of Consumption Spending    145
- 5.2    Taking Account of Social Security            151
- 5.3    Deferring Taxes through Voluntary Retirement Plans            152
- 5.4    Should You Invest in a Professional Degree?            154
- 5.5    Should You Buy or Rent?            155
- Summary            157
- Questions and Problems            160

**Chapter 6    How to Analyze Investment Projects            165**

- 6.1    The Nature of Project Analysis            166
- 6.2    Where Do Investment Ideas Come From?            167
- 6.3    The Net Present Value Investment Rule            168
- 6.4    Estimating a Project's Cash Flows            169
- 6.5    Cost of Capital            172
- 6.6    Sensitivity Analysis Using Spreadsheets            173
  - 6.6.1    Break-Even Point            176
  - 6.6.2    Sensitivity of NPV to Sales Growth            176
- 6.7    Analyzing Cost-Reducing Projects            176
- 6.8    Projects with Different Lives            179
- 6.9    Ranking Mutually Exclusive Projects            179
- 6.10    Inflation and Capital Budgeting            181
- Summary            182
- Questions and Problems            186

**PART III    VALUATION MODELS            193**

**Chapter 7    Principles of Asset Valuation            193**

- 7.1    The Relation between an Asset's Value and Its Price            194
- 7.2    Value Maximization and Financial Decisions            194
- 7.3    The Law of One Price and Arbitrage            196
- 7.4    Arbitrage and the Prices of Financial Assets            197
- 7.5    Interest Rates and the Law of One Price            198
- 7.6    Exchange Rates and Triangular Arbitrage            199
- 7.7    Valuation Using Comparables            202
- 7.8    Valuation Models            202
  - 7.8.1    Valuing Real Estate            203
  - 7.8.2    Valuing Shares of Stock            203
- 7.9    Accounting Measures of Value            204
- 7.10    How Information Is Reflected in Security Prices            206
- 7.11    The Efficient Markets Hypothesis            206

Summary	208
Questions and Problems	211
Appendix	213

## **Chapter 8 Valuation of Known Cash Flows: Bonds 215**

8.1 Using Present Value Formulas to Value Known Cash Flows	216
8.2 The Basic Building Blocks: Pure Discount Bonds	218
8.3 Coupon Bonds, Current Yield, and Yield to Maturity	220
8.3.1 Beware of "High-Yield" U.S. Treasury Bond Funds	223
8.4 Reading Bond Listings	224
8.5 Why Yields for the Same Maturity May Differ	225
8.5.1 The Effect of the Coupon Rate	225
8.5.2 The Effect of Default Risk and Taxes	226
8.5.3 Other Effects on Bond Yields	227
8.6 The Behavior of Bond Prices over Time	227
8.6.1 The Effect of the Passage of Time	227
8.6.2 Interest-Rate Risk	228
Summary	230
Questions and Problems	232

## **Chapter 9 Valuation of Common Stocks 234**

9.1 Reading Stock Listings	234
9.2 The Discounted Dividend Model	235
9.2.1 The Constant-Growth-Rate, Discounted Dividend Model	236
9.3 Earnings and Investment Opportunities	238
9.4 A Reconsideration of the Price/Earnings Multiple Approach	242
9.5 Does Dividend Policy Affect Shareholder Wealth?	242
9.5.1 Cash Dividends and Share Repurchases	243
9.5.2 Stock Dividends	244
9.5.3 Dividend Policy in a Frictionless Environment	246
9.5.4 Dividend Policy in the Real World	247
Summary	248
Questions and Problems	251

## **PART IV RISK MANAGEMENT AND PORTFOLIO THEORY 255**

### **Chapter 10 An Overview of Risk Management 255**

10.1 What Is Risk?	256
10.1.1 Risk Management	257
10.1.2 Risk Exposure	258
10.2 Risk and Economic Decisions	258
10.2.1 Risks Facing Households	259
10.2.2 Risks Facing Firms	260
10.2.3 The Role of Government in Risk Management	261
10.3 The Risk-Management Process	261
10.3.1 Risk Identification	261
10.3.2 Risk Assessment	263

10.3.3	<i>Selection of Risk-Management Techniques</i>	263
10.3.4	<i>Implementation</i>	264
10.3.5	<i>Review</i>	264
10.4	<b>The Three Dimensions of Risk Transfer</b>	264
10.4.1	<i>Hedging</i>	265
10.4.2	<i>Insuring</i>	265
10.4.3	<i>Diversifying</i>	266
10.5	<b>Risk Transfer and Economic Efficiency</b>	268
10.5.1	<i>Efficient Bearing of Existing Risks</i>	268
10.5.2	<i>Risk and Resource Allocation</i>	268
10.6	<b>Institutions for Risk Management</b>	269
10.7	<b>Portfolio Theory: Quantitative Analysis for Optimal Risk Management</b>	272
10.8	<b>Probability Distributions of Returns</b>	273
10.9	<b>Standard Deviation as a Measure of Risk</b>	275
	<b>Summary</b>	277
	<b>Questions and Problems</b>	280
	<b>Appendix</b>	282

## **Chapter 11 Hedging, Insuring, and Diversifying 284**

11.1	<b>Using Forward and Futures Contracts to Hedge Risk</b>	285
11.2	<b>Hedging Foreign-Exchange Risk with Swap Contracts</b>	290
11.3	<b>Hedging Shortfall Risk by Matching Assets to Liabilities</b>	291
11.4	<b>Minimizing the Cost of Hedging</b>	292
11.5	<b>Insuring versus Hedging</b>	293
11.6	<b>Basic Features of Insurance Contracts</b>	294
11.6.1	<i>Exclusions and Caps</i>	295
11.6.2	<i>Deductibles</i>	295
11.6.3	<i>Copayments</i>	295
11.7	<b>Financial Guarantees</b>	295
11.8	<b>Caps and Floors on Interest Rates</b>	296
11.9	<b>Options as Insurance</b>	296
11.9.1	<i>Put Options on Stocks</i>	297
11.9.2	<i>Put Options on Bonds</i>	298
11.10	<b>The Diversification Principle</b>	298
11.10.1	<i>Diversification with Uncorrelated Risks</i>	299
11.10.2	<i>Nondiversifiable Risk</i>	301
11.11	<b>Diversification and the Cost of Insurance</b>	303
	<b>Summary</b>	304
	<b>Questions and Problems</b>	306
	<b>Appendix</b>	314

## **Chapter 12 Choosing an Investment Portfolio 318**

12.1	<b>The Process of Personal Portfolio Selection</b>	319
12.1.1	<i>The Life Cycle</i>	319
12.1.2	<i>Time Horizons</i>	320

12.1.3	<i>Risk Tolerance</i>	322
12.1.4	<i>The Role of Professional Asset Managers</i>	322
12.2	<b>The Trade-Off between Expected Return and Risk</b>	323
12.2.1	<i>What Is the Riskless Asset?</i>	323
12.2.2	<i>Combining the Riskless Asset and a Single Risky Asset</i>	324
12.2.3	<i>Achieving a Target Expected Return: 1</i>	327
12.2.4	<i>Portfolio Efficiency</i>	327
12.3	<b>Efficient Diversification with Many Risky Assets</b>	329
12.3.1	<i>Portfolios of Two Risky Assets</i>	329
12.3.2	<i>The Optimal Combination of Risky Assets</i>	331
12.3.3	<i>Selecting the Preferred Portfolio</i>	332
12.3.4	<i>Achieving a Target Expected Return: 2</i>	334
12.3.5	<i>Portfolios of Many Risky Assets</i>	335
	<b>Summary</b>	337
	<b>Questions and Problems</b>	339
	<b>Appendix</b>	342

## **PART V ASSET PRICING 343**

### **Chapter 13 The Capital Asset Pricing Model 343**

13.1	<i>The Capital Asset Pricing Model in Brief</i>	344
13.2	<i>Determinants of the Risk Premium on the Market Portfolio</i>	347
13.3	<i>Beta and Risk Premiums on Individual Securities</i>	348
13.4	<i>Using the CAPM in Portfolio Selection</i>	349
13.5	<i>Valuation and Regulating Rates of Return</i>	352
13.5.1	<i>Discounted Cash Flow Valuation Models</i>	352
13.5.2	<i>Cost of Capital</i>	353
13.5.3	<i>Regulation and Cost-Plus Pricing</i>	353
13.6	<i>Modifications and Alternatives to the CAPM</i>	354
	<b>Summary</b>	355
	<b>Questions and Problems</b>	356

### **Chapter 14 Forward and Futures Prices 360**

14.1	<i>Distinctions between Forward and Futures Contracts</i>	361
14.2	<i>The Economic Function of Futures Markets</i>	363
14.3	<i>The Role of Speculators</i>	364
14.4	<i>Relation between Commodity Spot and Futures Prices</i>	365
14.5	<i>Extracting Information from Commodity Futures Prices</i>	366
14.6	<i>Forward-Spot Price Parity for Gold</i>	366
14.6.1	<i>The "Implied" Cost of Carry</i>	368
14.7	<i>Financial Futures</i>	369
14.8	<i>The "Implied" Riskless Rate</i>	372
14.9	<i>The Forward Price Is Not a Forecast of the Future Spot Price</i>	373
14.10	<i>Forward-Spot Price-Parity Relation with Cash Payouts</i>	373
14.11	<i>"Implied" Dividends</i>	374
14.12	<i>The Foreign-Exchange Parity Relation</i>	375

14.13	The Role of Expectations in Determining Exchange Rates	376
	Summary	377
	Questions and Problems	380
	Appendix	381

## **Chapter 15 Options and Contingent Claims      383**

15.1	How Options Work	384
15.1.1	<i>Index Options</i>	386
15.2	Investing with Options	387
15.3	The Put-Call Parity Relation	391
15.4	Volatility and Option Prices	394
15.5	Two-State (Binomial) Option Pricing	395
15.6	Dynamic Replication and the Binomial Model	398
15.7	The Black-Scholes Model	399
15.8	Implied Volatility	402
15.9	Contingent Claims Analysis of Corporate Debt and Equity	403
15.10	Credit Guarantees	406
15.10.1	<i>A Hypothetical Example</i>	407
15.11	Other Applications of Option-Pricing Methodology	408
	Summary	410
	Questions and Problems	414

## **PART VI CORPORATE FINANCE      417**

### **Chapter 16 Capital Structure      417**

16.1	Internal versus External Financing	418
16.2	Equity Financing	419
16.3	Debt Financing	419
16.3.1	<i>Secured Debt</i>	420
16.3.2	<i>Long-Term Leases</i>	420
16.3.3	<i>Pension Liabilities</i>	421
16.4	The Irrelevance of Capital Structure in a Frictionless Environment	423
16.5	Creating Value through Financing Decisions	426
16.6	Reducing Costs	427
16.6.1	<i>Taxes and Subsidies</i>	427
16.6.2	<i>Costs of Financial Distress</i>	429
16.7	Dealing with Conflicts of Interest	430
16.7.1	<i>Incentive Problems: Free Cash Flow</i>	430
16.7.2	<i>Conflicts between Shareholders and Creditors</i>	431
16.8	Creating New Opportunities for Stakeholders	431
16.9	Financing Decisions in Practice	432
16.9.1	<i>The Five Companies</i>	432
16.9.2	<i>The Five Financing Methods</i>	433

16.10	How to Evaluate Levered Investments	434
16.10.1	Three Valuation Methods Compared	434
	Summary	437
	Questions and Problems	440
<b>Chapter 17</b>	<b>Finance and Corporate Strategy</b>	<b>443</b>
17.1	Mergers and Acquisitions	443
17.2	Spin-offs	447
17.3	Investing in Real Options	448
17.3.1	An Example	449
17.3.2	Applying the Black-Scholes Formula to Value Real Options	451
	Summary	453
	Questions and Problems	455
	<b>Suggested Readings</b>	<b>456</b>
	<b>Glossary</b>	<b>459</b>
	<b>Index</b>	<b>464</b>
