	Application Development versus Technical Operations 10	
	IT Department Goals 11	
	The Value of IT Managers 11	
1.4	Developing an IT Strategy 12	
	Determine Who Your Team Members Are 13	
	Determine How Important Technology Is to Your Organization 13	
	Determine Who Your Customers Are and What Their Needs Are 14	
	Keep Your Department Central to the Company's Operations 14	
1.5	Starting Your New Job 15	
	The First Day 15	
	Meeting the Staff 15	

- A Few Ideas for What to Say to Break the Ice 16
- Some Don'ts 17
- One-on-One Meetings 17
- What to Say to Those Who Wanted Your Job and Didn't Get It 18
- Establish a Relationship with Your Manager and Your Peers 19
- Learning the Landscape: Key Users and Key Applications 21
- 1.6 The First 100 Days 23**
 - No Organization Is Perfect 23
 - Quietly Advertising What You Bring to the Table 24
 - Projects in Progress and Projects on the Horizon 26
 - Is the Status Quo Good Enough? 26
 - People to Meet and Know 27
 - Quick Hello Meetings 29
 - HR (Human Resource) Issues 29
 - Budgeting 30
 - Making Those First Decisions 31
- 1.7 Two IT Departments—What Happens if Your Company Merges with Another? 32**

Chapter 2

Managing Your IT Team		35
2.1	Keeping Employees Focused	36
	Establish Priorities	36
	Communicate with Your Team	37
	Company Mission, Vision, and Values	39
	Be as Clear as Possible about Your Real Priorities	40
	Avoid Burnout in Your Employees	40
	Make Your Employees Aware of the Dangers of Burnout	41
	Deal with the Situation	41
2.2	Employee Training	42
	Cost	43
	Need	43
	Employee Morale	44
	Scheduling Demands	44

	How Do You Know When Your Employees Need Training?	44
	Certification	45
	What if the Employee Takes a Training Class and Then Uses His New-found Skills to Find Another Job?	46
	Non-Technical Training	46
	Maximizing the Value of Training	47
2.3	Employee Performance	47
	Performance Reviews	48
	Key Areas of Evaluation	49
	Specific Evaluation Statements	53
	Guidelines for Reviews	53
	Negative Reviews	55
	Have Employees Review Themselves	57
	"360" Reviews	57
	How to Conduct the Actual Review Discussion	59
	Development Plans and Goals	59
	Salary Review	60
	Disciplinary Problems and Terminations	61
2.4	Leadership versus Management	66
2.5	Generational Issues at Work	67
	Managing across Generations	68

Chapter 3

	Staffing Your IT Team	75
3.1	Why IT Managers Need to Deal with Hiring People	76
	Human Resources Department's Role	76
	Justifying a Hire	78
	Start with Internal and External Referrals	79
	Internal versus External Hires	79
	Should You Hire a Full-Time Employee or a Consultant?	83
3.2	Write a Position Description	88
	Position Descriptions versus Contracts	89
	General Requirements	89
	Advertising Options	91
3.3	Recruiters	94
	Finding the Right Recruiter	96
3.4	Selecting Candidates	98

- Reviewing Résumés 98
- Telephone Screening 100
- At What Level Should I Interview? 100
- Narrowing Down the List 101
- General Interview Guidelines 103
- Prepare a List of Questions 104
- Who Else Should Interview a Candidate? 106
- Key Concepts for a Good Technical Interview 107
- Rank Criteria 110
- The Value of Certification 111
- Education 113
- Checking References 115
- Common Hiring Mistakes 117
- Offering the Correct Salary for an IT Position 118

Chapter 4

Project Management	121
4.1 Projects and Project Management: A Quick Overview	122
Different Kinds of Projects	122
The Value of Project Management	123
Five Key Phases to a Project	123
Do You Have to Be a Certified Project Manager to Run a Project?	123
The Project Management Institute (PMI)	124
A Project Management Office	125
4.2 Phase One: Scope the Project	125
Clearly Define the Project's Objective and Scope to Avoid "Scope Creep"	125
Department versus Company Objectives	127
Get Proper Sponsorship for the Project	127
Identify the Stakeholders	128
Identify the Constraints, Interdependencies, and Risks	129
The Project Charter	130
Get Historical Perspective	131
4.3 Phase Two: Develop a Project Plan	131
Three Critical Components to Any Project	131

	Write the Project Plan with the Closeout Report in Mind	133
	Time Estimates	133
	Resources Required: Employees (Internal and External to IT)	134
	Money	135
	Roles and Responsibilities	137
	Multiple Projects	137
4.4	Phase Three: Launch the Project	138
	Range of Launch Options	138
	Stage a "Kick-Off Meeting"	138
4.5	Phase Four: Track the Project's Progress	139
	Microsoft Project	139
	Other Project Management Tools	140
	Gantt Charts and Time Lines	140
	PERT Charts and Critical Paths	141
	Project Milestones	143
	Updates to Management and the Team	143
4.6	Phase Five: Close Out the Project	144
	Writing a Closeout Report	144
4.7	Decision-Making Techniques	145
	Four Types of Decision-Making Methods	145
4.8	What to Do if/When the Project Gets Off Track	147
	Some Issues out of Your Control	147
	When a Project Gets behind Schedule	148
	Your Project Is Costing More Than Expected	149
4.9	Useful Project Management Techniques	150
	Project Teams	150
	Create a "War Room"	151
	Formalized Project Frameworks	151
	Participate in the Project Yourself	152
	Offer Project Perks	152
	Give Your Project a Code Name	152
	Productive Project Meetings	152
4.10	Funding Projects	155
	Estimating Costs: Go High	156
	Projects Always Cost More Than Estimated	156
	Exactly Who Is Going to Pay for It?	157
	Justifying the Costs	157

- 4.11 Multiple Projects: How to Juggle Them Well 158**
You Will Have Multiple Projects 158
- 4.12 Dealing with Non-IT Departments on a Project 159**
Motivating Employees outside Your Department 159
Who Is in Charge? 160

Chapter 5

Managing the Money

161

- 5.1 The Budgeting Process 162**
Possible Budget Items 162
Chargebacks—Who Really Pays? 165
Reviewers for Your Budget 165
Estimating (and Overestimating) Your Numbers 166
Getting Approval and Defending Your Budget 166
During the Year: Tracking and Revising Your Budget 167
- 5.2 The Difference between Capital Expenditures and Operating Expense Items 168**
Capital Expenditure Details 169
Check with Your Company's Policies 169
Gray Areas 170
- 5.3 Lease versus Buy: Which One Is Better? 171**
Leasing 172
Who Makes This Decision? 173
- 5.4 Other Budgeting Factors to Consider 173**
Growth of Your Department's Workload 174
Technological Change 174
Staff 174
Software Maintenance 175
Hardware Maintenance 175
- 5.5 Managing Vendors 177**
Establish a Relationship 177
Help Your Vendors 178
Request for Proposals 178
Get Multiple Bids 179
Set Up a Trial 179
Reviewing Contracts with Vendors 180
Evaluating Alternatives 181

	Set Up a Matrix	181
5.6	Managing the Money during Difficult Times	184
	Managing Costs	185
	Leverage IT for Increased Business Value	186
	Demonstrating Leadership	187
5.7	Outsourcing and Offshoring	187
	Offshore Outsourcing Overview	188
	Which Functions to Outsource	190
	Does Outsourcing Make Sense?	191

Chapter 6

	Software, Operating Systems, and Enterprise Applications	195
6.1	Types of Software	196
	Types of Software	196
6.2	Operating Systems	197
	Windows	197
	Mac	198
	Unix Variants and Linux	198
	Choosing an Operating System	198
	Multiple Operating Systems	199
6.3	Open Source	201
	Definition	201
	Cost	201
6.4	Managing Software	203
	Total Cost of Ownership (TCO)	203
	Software Management Techniques	203
	Software Licensing	205
	Licensing Issues	207
6.5	Cloud Computing	210
6.6	Enterprise Applications	213
	E-Mail	213
	Managing E-Mail	214
	Unified Messaging	217
	Directory Services	217
6.7	Enterprise Resource Planning (ERP)	219
	The Value of ERP Software	219

General ERP Implementation Issues	219
Costs of Implementing ERP	220
Major Changes Required	220
It Isn't Only IT's Decision	220
Disadvantages to ERP	221

Chapter 7

Security and Compliance	223
7.1 A Quick Note on How We Got Here	224
Get Perspective	224
Computer Security Themes	225
7.2 Managing Security	227
Action 1: Evaluate Your Environment's Needs, Exposures, and Defenses	228
Action 2: Get Upper Level Management Buy-In	231
Action 3: Mitigate the Risks	231
Action 4: Work with Users to Make Everyone More Secure	232
Action 5: Remember That Security Is an Ongoing Process	233
7.3 Security Solutions and Technologies	234
Tracking and Controlling Access	234
Authentication	238
Security Defenses	240
Incident Response	244
7.4 Types of Threats	245
Malware	245
Phishing and Social Engineering	246
7.5 Compliance and IT	248
Overview	248
Victims of Non-Compliance	248
7.6 The Rules	249
Sarbanes-Oxley	249
Health Insurance Portability and Accountability Act (HIPAA)	250
Basel II	250

	SB-1386	251
	Fair and Accurate Credit Transactions Act (FACTA)	252
	Gramm–Leach–Bliley	252
	U.S. Securities	253
	Patriot Act	254
	Office of Foreign Assets Control (OFAC)	254
	CLERP-9 (Australia)	255
	Personal Information Protection and Electronic Documents Act (PIPEDA)	255
	Privacy and Electronic Communications Directive (European Union)	255
	Data Protection Directive (European Union)	256
7.7	How to Comply with the Rules	256
	Document the Policies	257
	Identify Control Mechanisms	258
	Educate Employees	258
	Maintain Evidence	259
7.8	Hidden Benefits of Complying with the Rules	259
	The Hidden Benefit of Documentation	259
	The Hidden Benefit of Control Mechanisms	260
	The Hidden Benefit of Educating Your Employees	260
	Hidden Benefits of Maintaining Evidence	261
7.9	Methodologies and Frameworks	261
	IT Governance	261
	Committee of Sponsoring Organizations (COSO)	262
	Control Objectives for Information and related Technology (COBIT)	262
	IT Infrastructure Library (ITIL)	263
	Capability Maturity Model Integration (CMMI)	263
	International Organization for Standards (ISO 9000)	264
	Six Sigma	265
7.10	It's Not Just Regulatory Compliance	266
	Electronic Discovery	266
	Working with Auditors	266
	Disaster Recovery and Business Continuity	267
	Definition of Policies and Procedures	267
	Outsourcing	268

Chapter 8

Disaster Recovery 269

- 8.1 Defining the Scope 270**
 - Key Questions 270
 - Recover Time and Recover Point Objectives 271
 - Disaster Recovery Committee 272
 - Application Assessment 273
 - The Value of Your Data 275
- 8.2 Create a Disaster Recovery Plan 276**
 - Communication Plan 276
 - Documentation 277
 - Real Estate and IT Facilities 278
 - Off-Site Storage of Data 280
 - Hardware Availability 281
 - Regular Updating and Testing 282
 - After the Disaster 283
 - Regional and Catastrophic Disasters 284
 - The ACT Model 284
- 8.3 A Word about Incident Response, Business Continuity, and Disaster Recovery 285**
- 8.4 The Hidden Benefits of Good Disaster Recovery Planning 287**

Chapter 9

Working with Users 289

- 9.1 Relationships with Users 290**
 - Being Available and Reachable 290
 - Sharing Information 291
 - Collecting Information 292
 - Proactive Solutions 293
 - Flexibility 295
 - User Training 295
- 9.2 The Help Desk 296**
 - Typical Help Desk Activities 297
 - Procedures 298

	Access	299
	Self-Service	299
	Tools	300
	User Surveys	302
	Measuring the Help Desk Workload	303
	Staffing	304
9.3	Service Level Agreements	306
	Positive Values of SLAs	306
	Ask for Help from Your Staff	307
	Writing Good SLAs	307

Chapter 10

The New Technologies of Connectedness 309

10.1	Get Connected	310
	The New Technologies of Connectedness	310
	Pros	311
	Cons	312
	Wisdom of Crowds	313
10.2	The Web	314
	What Companies Are Using the Web for These Days	314
	Getting Noticed on the Web	315
10.3	Intranets	317
10.4	Stay Focused	319
	Remember Your Goals	319
	What Is “Focused” and What Is “Distracted”?	320
	Security	322
10.5	What Should You Do about All This?	323
	Lead, Encourage, and Experiment	323
